

CARBIDE MINE LAMPS

THIS IS THE LAMP THAT WORKS WITHOUT WATCHING

It's trouble proof—burns a steady bright light. NO RAKING NEEDED—Built to stand hard knocks. Here is a lamp which overcomes everything ever considered a weakness or a fault in carbide mine lamps. This lamp requires no attention, once its charged and lighted. There is never a need to rattle it—there are no wires to be jiggled—no screws which call for adjusting, nor valves of any kind which require regulating. You never have to jar or shake it to increase the size of the flame. You simply put in the carbide and water, then light it. The flame will burn as steadily as a jet of city gas, and requires no more attention than does the electric bulb used to light your home or your office; the flame remains the same size until the last atom of carbide is used up. Agitating or jarring does not affect the size of the flame. The water regulation is absolutely automatic, and as accurate and dependable as the movement of a fine watch. WE ARE STATE DISTRIBUTORS OF THIS FAMOUS LAMP and have it in several models. Phone write or wire us for prices and description.
